# Lashcott Hair

A NEW SEASON

## The Air Changes, So Does Your Hair.

Shop the refresh

## When the weather turns, your hair feels it first.

Cooler, drier air pulls moisture from every strand. Scarves and collars add friction. The install that felt perfect in summer starts to look tired. It is not you. It is the season.

## Your hair's response:

Dryness shows up as frizz, dullness and tangling. Real human hair reacts to the shift the same way yours does, which is exactly why it can look flawless one week and flat the next.

THE HAIR EDIT

## What can you do about it?

Refresh the install. A new set of unprocessed Vietnamese virgin hair holds moisture, resists tangling and gives you back that first-day feel, custom cut to your length, color and texture.

### Bodywave Bundles

From $43.00
